

Maintenance Made Easier: Quick Access Field Support Videos

- Effective immediately all Coro-Flo® turbine pumps have a QR code label next to the nameplate as shown in the photo below.
- The QR code allows distribution partners and end users to quickly access the routine maintenance procedures for CORKEN's turbine pumps.
- To access the QR code, download the QR app from the app store of choice and scan the code into the phone. After a successful scan, the maintenance instructions will begin playing.

Solutions beyond products...
